SCHEDULE 7 - Areas where native title has been extinguished

1. Native title rights and interests have been extinguished in respect of those parts of the Native Title Land being any house, shed or other building or airstrip or any dam or other stock watering point constructed pursuant to the pastoral leases referred to in paragraph 15 of these Orders prior to the date of this determination. These areas include any adjacent land or waters the exclusive use of which is necessary for the enjoyment of the improvements referred to.
2. To be clear, item 1 does not preclude the possibility of further extinguishment, according to law, of native title over other limited parts of the Native Title Land by reason of the construction of new pastoral improvements of the kind referred to in item 1 after the date of this Determination.
3. Native title rights and interests have been extinguished in:
 - a. minerals as defined in section 6 of the *Mining Act 1971* (SA);

- b. Petroleum, as defined in section 4 of the *Petroleum and Geothermal Energy Act 2000* (SA);
- c. a naturally occurring underground accumulation of a regulated substance as defined in section 4 of the *Petroleum and Geothermal Energy Act 2000* (SA), below a depth of 100 metres from the surface of the earth;
- d. a natural reservoir, as defined in section 4 of the *Petroleum and Geothermal Energy Act 2000* (SA), below a depth of 100 metres from the surface of the earth;
- e. geothermal energy, as defined in section 4 of the *Petroleum and Geothermal Energy Act 2000* (SA) the source of which is below a depth of 100 metres from the surface of the earth.

For the purposes of this item 3 and the avoidance of doubt:

- f. a geological structure (in whole or in part) on or at the earth's surface or a natural cavity which can be accessed or entered by a person through a natural opening in the earths surface, is not a natural reservoir;
 - g. thermal energy contained in a hot or natural spring is not geothermal energy as defined in section 4 of the *Petroleum and Geothermal Energy Act 2000* (SA);
 - h. the absence from this Order of any reference to a natural reservoir or a naturally occurring accumulation of a regulated substance, as those terms are defined in section 4 of the *Petroleum and Geothermal Energy Act 2000* (SA), above a depth 100 metres below the surface of the earth or geothermal energy the source of which is above a depth of 100 metres below the surface of the earth is not, of itself, to be taken as an indication of the existence or otherwise of native title rights or interests in such natural reservoir, naturally occurring accumulation of a regulated substance or geothermal energy.
4. Native title rights have been extinguished in the areas covered by Public Works (including the land defined in section 251D of the *Native Title Act*) which were constructed, established or situated prior to 23 December 1996 or commenced to be constructed or established on or before that date.
 5. Public Works constructed, established or situated after 23 December 1996 have had such effect as has resulted from Part 2, Division 3, of the *Native Title Act* or as agreed pursuant to the Far West Coast Native Title Claim Settlement ILUA.
 6. Native title rights have been extinguished over all roads which have been delineated in a public map pursuant to section 5(d)(II) of the *Crown Lands Act 1929* (SA) or s70(3) or (4) of the *Crown Land Management Act 2009* (SA) or which have otherwise been validly established pursuant to South Australian Statute or common law as shown in brown on the maps in Schedule 2.
